

Counselling Services

Providing emotional and psychological support to navigate the journey of illness.

Patient Counselling

A diagnosis can bring fear, anxiety, and depression. Our counselors help patients cope with their diagnosis, manage their emotions, and find meaning and hope.

We offer individual sessions that provide a safe space to express feelings without judgment.

Family & Bereavement Support

Cancer affects the whole family. We provide family counselling to help improve communication and support one another.

We also offer bereavement counselling to help families navigate grief and loss after a loved one passes.
